

Symposia and Special Seminars

Two symposia will be held at the Congress:

The varieties of capitalism approach to industrial relations
The impact of European enlargement

Special Seminars – Call for proposals.

The Academic Steering Group invites proposals for Special Seminars to be scheduled within the Congress. Special Seminars provide an opportunity to present the final or interim results from international, cross national or comparative research projects.

The exact format of the session is up to the Special Seminar convenor but the expectation is that there will be a certain amount of work prior to the Congress so that presentations in the seminar are integrated rather than a number of people each presenting a separate paper.

Sessions will be scheduled for 90 minutes. Only a limited number of such sessions can be accommodated. Proposals already submitted in anticipation of this call need not be re-submitted. Proposals should be forwarded by the 23rd March to mcc.reg@manchester.ac.uk.

A proposal should set out the names(s) and institution of the convenor, the subject/theme of the seminar, a paragraph giving the background to the seminar and indicative content, and a list of proposed contributors with their institutions (indicating whether they have agreed to participate).

Please note that Special Seminars are in addition to and separate from the activities of Study Groups.
